The first step to initiating enrollment into ViridianCares is to complete the Patient Enrollment Form with your patient. **It is crucial to complete all required fields, and please ensure your patient signs and dates the Patient Authorization to Use/Disclose Health Information.**

- ☐ The Patient Information, Prescriber Information, and Prescription sections have been completed.
- ☐ The Insurance Information section has been completed, OR copies of the front and back of patient's insurance card(s) have been included.
- ☐ The appropriate diagnosis code has been indicated.
- ☐ The Prescriber Certification has been signed.
- ☐ The patient has read and signed the Patient Authorization to Use/Disclose Health Information.
- ☐ The preferred infusion facility is included; if none is selected, ViridianCares can provide options.

Patient authorization is required for enrollment.

Please note that your patient will not be considered for services and support offered by ViridianCares unless your patient signs the Patient Authorization to Use/Disclose Health Information.

1-833-726-5151

Once the form has been completed and signed, fax all pages of the form (as well as copies of the front and back of the patient's insurance card, if needed). **All pages of the form are required for a complete submission.**

1-866-VCARES1

Call a ViridianCares Patient Access Liaison (PAL) with any questions you may have about the enrollment process.

Once the enrollment form is submitted, a ViridianCares PAL will contact you and support your patient throughout the onboarding and treatment journey.

Educational Resources

Please visit www.viridiancares.com for:

- Support connecting patients with their ViridianCares PAL
- Resources to help you understand what to expect when starting a patient on Lumvoa
